

HAGERMAN & COMPANY®

Hagerman Energy & Utility Solutions

Hagerman Energy & Utility Solutions provide utility companies and their consultants with the software and services they need to meet the challenges of maintaining and updating our vital energy infrastructure.

Hagerman & Company offers solutions from Autodesk® and Accruent® and specializes in these main areas: CAD design, engineering document management, and project collaboration.

Our solutions and services have been developed and honed as a result of supporting the needs of utility companies and their outside consulting firms for the last 40 years. Hagerman's utility customers are spread across the United States and include Ameren, NIPSCO, Exelon, New York Power Authority, Entergy, Seminole Electric and Cleco.

Hagerman's Energy & Utility Solutions services team includes 25+ team members with 100's of years of real world experience.

**WOMEN
OWNED**™

Do you have Supplier Diversity Goals?

We can help! Hagerman & Company is certified by the Women's Business Enterprise National Council (WBENC) as a Women's Owned Business.

Hagerman Energy & Utility Solutions include:

- All AutoCAD®, Inventor®- and Revit®-based design software
- Engineering document management software from Accruent and Autodesk, including Autodesk Vault
- Project collaboration solutions from Accruent and Autodesk including Autodesk Construction Cloud
- Hagerman Connection software including Project Connection for linking as-builts and project files and performing "concurrent engineering"

And most importantly, a full suite of consulting services including:

- Needs analysis and project planning
- Training and implementation assistance
- Legacy data migrations
- Customization and system integration
- Ongoing support
